\$100.00 non members

The new director of a suburban funeral home is in a tizzy. He doesn't know how to create an appropriate celebration of life for a woman nobody liked. He is aided by the well-intentioned "Last Supper Committee", but today their menu disagreements are on the verge of leading to an all out food fight. A crazy nutty story about making the most of a life, even if a person has to make most of it up.
